

Project Proposal: PlaneEnglish

Project: Website Development

Prepared for: Muharrem Mane

Prepared by: Jackson Ingenito

Date: 4/6/2025

Project Overview

Thank you for considering me to work on improving your website. Based on our initial discussion and my analysis of how the site was built previously, in addition to how I plan to further improve it, I have created the following proposal. It's clear to me that your site has the potential to reach more customers organically and retain them with an updated look, improved user experience, and stronger SEO and structural practices.

This proposal outlines three levels of service packages (Cosmetic, Cosmetic & Structural, Cosmetic & Structural with SEO) to help you decide best on what path you would like to move forward with based on your goals.

1. Cosmetic Rework

Scope of Work:

- Visual refresh of the existing Shopify store.
- Adjusting colors, fonts, and styling elements via HTML/CSS.
- Replacing or updating images to maintain brand consistency.
- Ensuring the site remains mobile-responsive with the updated design.

Deliverables:

- Updated look-and-feel on all core pages (Home, all of the Product Pages, Pricing Page).
- Layout changes—primarily aesthetic, with modifications to general page structure.
- Two to three rounds of revisions based on client feedback.

Pricing:

- \$1,050

Estimated Timeline:

- 2–3 weeks (with consistent feedback loops)

2. Cosmetic & Structural Redo (Recommended)

Scope of Work:

- All items in the Basic Cosmetic Rework, plus:
- Cosmetic changes to ALL pages of the website.
- Implementing correct page structure with better subfolders for users to easily find content.
- Organizing products for better visibility (e.g., reorganized product sections, new homepage features like sliders or featured product blocks).
- Template-level adjustments for improved layout (header/footer redesign, navigation redesign).

Deliverables:

- New, cohesive design across main sections of the site with adjustments to page structure for improved flow and search engine visibility.
- Organized and improved product listing groups to de-clutter the site.
- Multiple revision rounds to refine both aesthetic and functional changes.

Pricing:

- \$1,950

Estimated Timeline:

- 3–4 weeks, depending on the extent of structural changes and feedback loops.
-

3. Cosmetic + Structural Rework with SEO Improvements

Scope of Work:

- Everything in the Cosmetic + Structural Rework, plus:
- On-page SEO enhancements (e.g., optimized meta titles, descriptions, headings, alt tags for images).
- SEO-friendly structuring of product and collection pages.
- Implementation of best practices for site speed optimization (e.g., image compression, minimal script usage, code clean-up).
- Technical SEO checks (URL structure, sitemap, robots.txt, redirects if needed).

Deliverables:

- Redesigned site with improved user experience and layout.
- On-page SEO best practices integrated (improved meta tags, headings, alt tags).
- Faster page loading times (as feasible within Shopify's platform constraints).
- Guidance on SEO fundamentals for the client, if needed.

Pricing:

- \$2,950

Estimated Timeline:

- 4–6 weeks (given the added steps of SEO audits, keyword research, and subsequent implementations.)

Personal Comments / Industry Standard Comparison

As a developer who is creating his portfolio, I aim to offer competitive rates while still delivering great results. If these goals work for you but the numbers do not, I will do my best to accommodate your needs while still valuing my time properly for the needed effort it will take to improve this site.

Industry-wide, basic Shopify redesigns often start around \$1,500 - \$3,000 for purely aesthetic updates, while more complex structural overhauls and SEO work can range from \$3,000 - \$10,000+ depending on the agency or senior freelancer. My rates reflect an entry-level freelancer, while still offering quality work as well as high communication levels with you on the outcomes of the site.

My work philosophy is to continuously improve and create positive change wherever I can. I am not happy until my client is happy, and I refuse to hand over work that does not meet my own high standard.

Additional Comments

If desired, we can discuss and take notes on the current site analytics before the beginning of development to examine the potential faults of the current site and inform you of how we can better build upon them. This would potentially move the timeline back but would provide very helpful information.

Payment Terms

- Deposit: 30% of the total project cost due upon signing the proposal, securing a project start date.
- Mid-Project Payment: 30% of the total project cost due upon the “halfway” point, to be determined by both developer and website owner.
- Final Payment: 40% upon project completion and before the final handover of the website.
- Additional requests outside the scope of work will be billed separately.

Next Steps

If you're satisfied with the proposal, please:

1. Confirm the Chosen Package
2. Sign the Proposal (ensuring mutual understanding of the project scope, timeline, and pricing)
3. Submit the Deposit (once received, we can schedule a start date and kick off the project!)

Conclusion

I appreciate your consideration of my services for your website makeover. I'm dedicated to delivering a clean, modern design and improved functionality that will help your online presence.

If you have any questions, need clarification, or wish to adjust the proposal in any way, feel free to let me know. I'm here to ensure the final product meets your vision and business goals.

Thank you,

Jackson Ingenito
